

## YUNCA HEATING and EECA ENERGYWISE

July 2009

The Energywise programme allows home owners to SAVE up to a maximum of \$1300 (with ceiling and under-floor insulation).

When you combine this option with a **Yunca clean air approved wood fire** they can save a further \$500 (via a grant from Energywise and using an approved installer).

Remember that Community Service Card holders can save even more... and don't forget the landlords.

**Top these grants off with an instore special and you have some terrific savings.**

There will be lots of people out there chasing these bargains. You will be able to offer a "Grand Savings Package" to them, through an approved service provider.

You may well be already working with an approved provider (for details check the Energywise website, be aware that the list is a "work in progress" and as such may not be up to date).

[www.energywise.govt.nz](http://www.energywise.govt.nz)

The **Wegj CA, Hobson CA and Fitzroy CA** are all clean approved for these grants. We have found the Hobson an excellent choice for landlords - reasonable price, **robust** and cost effective .

The above is in response to numerous inquiries from approved providers asking if Yunca Woodburners can be installed under the scheme.

For further information contact Harvie and Tony at Yunca Dunedin on 03 488 4342, or 021 460 926, or email [dunedin@yunca.co.nz](mailto:dunedin@yunca.co.nz)
